Dear Chair Martin and Councilmembers:

SUBJECT: Revision to the Department of Planning and Permitting's Review of the  
Executive Capital Budget and Program for the FY 2016-2017, Bill 15 (2016)

We wish to update our review of the Executive Capital Budget and Program for the  
FY 2016-2017, Bill 15 (2016), which we submitted to you in our letter dated March 29, 2016.

Based on the Public Infrastructure Map (PIM) application recently received from the  
Department of Environmental Services, the Ala Moana Wastewater Pump Station No. 3 is already  
covered by a Sewage Pump Station Modification symbol (PIM No. 3) on the Primary Urban Center  
PIM.

Thus, we will not be submitting an official PIM report and recommendation to the City Council  
on this project.

Should you have any questions, please contact me at 768-8000.

Very truly yours,

SUBJECT: Follow-up Memo on our Review of the Executive  
Capital Budget and Program for the FY 2016-2017

As a follow-up to our transmittal letter to the City Council on our review of the Executive Capital Budget and Program for the FY 2016-2017, we offer the following two observations on future Capital Improvement Program (CIP) projects.

First, the following projects will likely require Public Infrastructure Map (PIM) revisions before funds for land acquisition or construction are appropriated:

<u>CIP No.</u>	<u>Project</u>
2003022	Police Evidence Warehouse
2017076	Pearl City Fire Station Relocation
2017081	Makakilo Drive Extension
2013046	Ahuimanu Wastewater Pre-Treatment Facility Improvements and Equalization Facility
2013051	Honolulu Area Wastewater Pump Station Facilities Improvements

Second, our Department is more actively reviewing CIP projects for their support of anticipated new growth capacity, particularly as it relates to Transit-Oriented Development neighborhoods. We are also looking at anticipated impacts of both sea level rise and climate change on construction siting and design. We would be happy to discuss these issues with you as you prepare next year's CIP budget.

Should you have any questions regarding this matter, please call Mike Watkins of our staff at extension 88044.
